

GREEN TAPE PROCESS FOR AFFORDABLE HOUSING

To be eligible for the green tape process for affordable housing, a project must designate that at least 20 percent of the total number of dwelling units will be made available to persons/families whose income is at or below the income level for moderately priced dwelling units as established by the Montgomery County government. This designation provides for expedited review of affordable housing projects to help address the increasing demand for such housing.

Submit this sheet with your application so that staff will know that your project can be processed expeditiously.
