

## Final forest conservation plan submission requirements

Submission Requirements	Shown on Plan	
	Yes	No
Signature of qualified professional and date	<input type="checkbox"/>	<input type="checkbox"/>
Shape and dimension of lots, showing locations of existing structures and improvements included paved areas	<input type="checkbox"/>	<input type="checkbox"/>
Locations and dimensions of all existing and proposed right-of-way, setbacks, easements, stockpile areas, and stormwater management facilities	<input type="checkbox"/>	<input type="checkbox"/>
Location of building restriction lines and areas to be conserved including floodplains, wetlands, and stream buffers	<input type="checkbox"/>	<input type="checkbox"/>
Conceptual locations of proposed structures and improvements, drainage systems, and sediment control measures	<input type="checkbox"/>	<input type="checkbox"/>
Proposed locations of afforestation and reforestation, including acreage	<input type="checkbox"/>	<input type="checkbox"/>
A table containing the following information:		
i. Acreage of tract	<input type="checkbox"/>	<input type="checkbox"/>
ii. Acreage of tract remaining in agricultural use	<input type="checkbox"/>	<input type="checkbox"/>
iii. Acreage of road and utility ROWs which will not be improved as part of the development application	<input type="checkbox"/>	<input type="checkbox"/>
iv. Acreage of stream valley buffer	<input type="checkbox"/>	<input type="checkbox"/>
v. Acreage of total existing forest	<input type="checkbox"/>	<input type="checkbox"/>
vi. Acreage of total forest retention	<input type="checkbox"/>	<input type="checkbox"/>
vii. Acreage of total forest cleared	<input type="checkbox"/>	<input type="checkbox"/>
viii. Land use category and conservation and afforestation thresholds from the section 22A-12(a) of the Forest Conservation Law	<input type="checkbox"/>	<input type="checkbox"/>
ix. Acreage of forest retained, cleared, and planted within wetlands	<input type="checkbox"/>	<input type="checkbox"/>
x. Acreage of forest retained, cleared, and planted within 100-year floodplains	<input type="checkbox"/>	<input type="checkbox"/>
xi. Acreage of forest retained, cleared, and planted within stream buffers	<input type="checkbox"/>	<input type="checkbox"/>
xii. Acreage of forest retained, cleared, and planted within priority areas	<input type="checkbox"/> <input type="checkbox"/>	<input type="checkbox"/> <input type="checkbox"/>
xiii. Linear feet and average width of stream buffer provided		
Forest conservation worksheet	<input type="checkbox"/>	<input type="checkbox"/>
Final grading plans which include building locations and footprints, retaining walls, road and parking layout, sidewalks and pathways, and location of recreation facilities	<input type="checkbox"/>	<input type="checkbox"/>
A limit of disturbance line that reflects the limits of all clearing and grading on the tract	<input type="checkbox"/>	<input type="checkbox"/>
Survey of trees 24 inches and greater DBH for 50 feet on	<input type="checkbox"/>	<input type="checkbox"/>

either side of the limit of disturbance, and delineation of their critical root zones. A survey of other trees may be necessary.		
Identification of retention areas including forest, tree stands and other individual trees to be saved including acreage	<input type="checkbox"/>	<input type="checkbox"/>
An afforestation/reforestation planting plan, if required, which contains:		
i. Location and acreage of areas to be planted	<input type="checkbox"/>	<input type="checkbox"/>
ii. An analysis of the suitability of the site for planting and a description of necessary methods	<input type="checkbox"/>	<input type="checkbox"/>
iii. A list of target tree and shrub species, chosen based on analysis of site conditions, which can be used for site planting	<input type="checkbox"/>	<input type="checkbox"/>
iv. A plant materials table including size of plants to be installed and quantities	<input type="checkbox"/>	<input type="checkbox"/>
v. Planting and inspection schedule, which is tied to the construction sequence for the project	<input type="checkbox"/>	<input type="checkbox"/>
vi. A maintenance plan which includes provisions for necessary watering, control of competing vegetation, protection from disease, pests, and mechanical injury, and reinforcement planting if plant survival falls below the requirements of the subsection 108E(3)(c).	<input type="checkbox"/>	<input type="checkbox"/>
vii. Calculation of financial security which is to be provided in an amount equal to the estimated cost for the required planting and maintenance, or equal to the fee in lieu for the area to be planted	<input type="checkbox"/>	<input type="checkbox"/>
viii. Maintenance and monitoring agreement.		
If off-site location is required, all the items in number 12, plus a map of the proposed planting site showing location, soils, and environmental features which are priority planting areas as stated in Section 108E(2).	<input type="checkbox"/>	<input type="checkbox"/>
Permanent protection area boundaries and long-term protection agreement, where appropriate, and building restriction lines.	<input type="checkbox"/>	<input type="checkbox"/>
A protection plan which shows:		
i. Location of temporary and permanent protection devices which must be installed if clearing, grading, or construction occurs within 50 feet of a retention boundary area	<input type="checkbox"/>	<input type="checkbox"/>
ii. Stockpile areas and borrow pits	<input type="checkbox"/>	<input type="checkbox"/>
iii. Specifications and details for the protection devices	<input type="checkbox"/>	<input type="checkbox"/>
iv. A narrative of stress reduction or other measures which are needed for specific trees	<input type="checkbox"/>	<input type="checkbox"/>
v. A field inspection schedule pursuant to Section 110	<input type="checkbox"/>	<input type="checkbox"/>
Calculation of the fee in lieu of reforestation or afforestation if appropriate	<input type="checkbox"/>	<input type="checkbox"/>
