

## Appendix I-1: Correspondence between Chairman Hanson and Secretary Swaim-Staley

On November 19, 2009, Planning Board Chairman Hanson wrote to the Secretary of MDOT, Beverly Swaim-Staley, requesting that information on three concerns be provided in advance of the Mandatory Referral reviews of individual projects. The concerns included how the project will be:

- Developed to best address multimodal needs in the corridor
- Designed to minimize or mitigate adverse impacts, particularly to residential communities
- Coordinates through implementation from both design and funding perspectives

The Chairman's letter is located at
