Preface

A.	Introduction.....	P-1
B.	Review of Public Outreach Efforts after Publication of the DEIS.....	P-1
1.	Review of Public Hearings	P-1
2.	Review of other outreach efforts.....	P-2
3.	Comment Period	P-3
4.	Comment Processing	P-3
C.	Review of Additional Studies	P-3
1.	Engineering	P-4
a.	Further Avoidance and Minimization Studies	P-4
b.	Further Refinement of Design.....	P-6
c.	Additional Analyses Based on Public/Agency Comments	P-10
2.	Environmental.....	P-12
a.	Mitigation Studies.....	P-12
b.	Environmental Stewardship Studies	P-13
c.	Additional Analyses Based on Public/Agency Comments	P-13
D.	Final Section 4(f) Evaluation	P-14
E.	Preferred Alternative.....	P-15
1.	Alternative.....	P-15
2.	Environmental Impacts	P-16
3.	Mitigation.....	P-16
4.	Environmental Stewardship.....	P-16
F.	Next Steps	P-17

Summary

A.	Administrative Action.....	S-1
B.	Contacts for Additional Information.....	S-1
C.	Planning History In the Study Area	S-3
1.	Land Use and Transportation Vision	S-3
a.	The Maryland-National Capital Park and Planning Commission	S-3
b.	1964 General Plan of Montgomery and Prince George’s Counties	S-4
c.	Montgomery County and Prince George’s Counties’ General and Master Plans	S-4
d.	Historic Locations of the ICC	S-4
2.	Past Project Planning Studies.....	S-5
a.	1983 and 1997 ICC NEPA Studies.....	S-5
b.	Transportation Solutions Group.....	S-5
3.	Transportation Initiatives in the Project Area	S-6

	a.	Congestion Relief Intersection Improvement Studies.....	S-6
	b.	Transportation Systems Management/Travel Demand Management.....	S-6
	c.	Expanded Transit	S-6
	d.	Transportation Policy Report Task Force	S-7
4.		Maryland Smart Growth Laws.....	S-7
	a.	1992 Planning Act.....	S-7
	b.	1997 Smart Growth Initiatives.....	S-7
	c.	2003 Priority Places Executive Order.....	S-8
D.		Initiation of Current Study	S-8
	1.	Environmental Streamlining	S-8
		a. Transportation Equity Act for the 21 st Century (TEA-21).....	S-8
		b. Executive Order 13274	S-8
	2.	2004 ICC NEPA Study	S-9
	3.	Adapted Process and Agency Coordination.....	S-9
	4.	Identification of New Data Needs.....	S-11
	5.	Major Differences between the 1997 and current FEIS Planning Studies and the Final Section 4(f) Evaluations.....	S-13
		a. Purpose and Need	S-13
		b. Environmental Stewardship.....	S-14
		c. Alternatives.....	S-15
		d. “Draft” Aesthetic Design Guidelines.....	S-16
		e. Engineering Alterations Since the 1997 Study	S-16
		f. Socioeconomic Analysis.....	S-16
		g. Cultural Resources	S-16
		h. Natural Resources	S-17
		i. Secondary and Cumulative Effects Analysis	S-17
		j. Final Section 4(f) Evaluation	S-18
		k. Public Coordination	S-18
		l. Tolls	S-18
E.		Modifications to the 2004 DEIS for the 2005 FEIS.....	S-18
F.		Description of Alternatives	S-19
	1.	No-Action	S-20
	2.	Build Alternatives	S-21
		a. Common Design Elements	S-21
		b. Corridor 1.....	S-21
		c. Corridor 2.....	S-21
		d. Alignment Options.....	S-21
G.		Preferred Alternative.....	S-24
	1.	Environmental Impacts	S-26
	2.	Corridor 1 Preferred Alternative.....	S-28
	3.	Mitigation.....	S-29
	4.	Environmental Stewardship.....	S-30

H.	Toll	S-31
I.	Effects on Transportation.....	S-32
J.	Summary of Environmental Impacts	S-32
	1. Section 4(f) Resources	S-32
	2. Cultural Resources	S-33
	a. Historic Standing Structures	S-33
	b. Effects Determination	S-34
	c. Archeological Resources.....	S-34
	3. Socioeconomic Resources and Land Use	S-34
	4. Effects on Regional Business Activities	S-36
	5. Natural Environmental Resources	S-37
	6. Noise Quality	S-40
	7. Air Quality	S-41
	8. Hazardous Waste	S-41
	9. Secondary and Cumulative Effects	S-42
K.	Regulatory Compliance.....	S-45
	1. Section 4(f) of the US Department of Transportation Act of 1966	S-45
	2. Section 106 of the National Historic Preservation Act.....	S-45
	3. Section 404 of the Clean Water Act	S-46
	4. Section 109(h) of the Federal Aid Highway Act.....	S-46
L.	State and Federal Permits and Approvals Required.....	S-46
M.	Summary Figures	S-47
N.	Environmental Assessment Form	S-47
I.	Purpose and Need	
A.	Project Purpose	I-1
B.	Project Needs	I-1
	1. Community Mobility and Safety.....	I-1
	2. Movement of Goods and People To and From Economic Centers.....	I-1
	3. Local Land Use	I-2
	4. Environmental Stewardship.....	I-2
	5. Homeland Security.....	I-2
C.	Historical Background	I-3
D.	Agency Concurrence and Cooperation	I-3
E.	Information on Project Needs	I-4
	1. Mobility and Safety.....	I-5
	a. Regional Mobility Trends	I-5
	b. Existing and Planned Transportation Network.....	I-7
	c. Existing and Future Traffic Operations	I-10
	d. Traffic Operations	I-12
	e. Accident Analysis	I-21
	2. Economic Centers	I-22
	3. Land Use and Master Plans.....	I-25

a.	The General Plan and Montgomery County	I-26
b.	The General Plan and Prince George’s County	I-27
4.	Natural, Community, and Cultural Environmental Stewardship	I-28
5.	Homeland Security/Emergency Response	I-30

II. Affected Environment

A.	Social Characteristics	II-1
1.	Population and Housing	II-2
a.	Population and Census Tracts	II-2
b.	Racial Characteristics	II-3
c.	Age, Gender, and Disabled Distributions	II-3
d.	Income Levels	II-5
e.	Housing	II-5
2.	Environmental Justice	II-6
a.	Methodology	II-7
b.	Supplemental Information	II-8
3.	Community Profiles of the Master Plan Areas	II-11
a.	Gaithersburg Vicinity/ Shady Grove Sector	II-11
b.	Upper Rock Creek	II-11
c.	Olney	II-12
d.	Aspen Hill	II-13
e.	Sandy Spring/ Ashton	II-14
f.	Cloverly	II-14
g.	Northwest Branch Portion of Kensington-Wheaton	II-15
h.	White Oak (Silver Spring)	II-15
i.	Fairland	II-16
j.	Subregion I	II-17
4.	Community Facilities and Services	II-18
a.	Parks and Recreational Facilities	II-18
b.	Educational Facilities	II-20
c.	Health Care Facilities	II-20
d.	Religious Facilities	II-20
e.	Emergency Service Facilities	II-20
f.	Water and Sewer Utilities	II-20
g.	Transit Facilities	II-21
h.	Other Community Facilities and Services	II-21
5.	Visual and Aesthetic Resources	II-21
B.	Economic Environment	II-22
1.	Regional Employment Characteristics	II-22
2.	Local Employment Characteristics	II-25
3.	Tax Base	II-25
C.	Land Use	II-26
1.	Existing Land Use	II-27

	a.	Montgomery County	II-27
	b.	Prince George’s County	II-27
2.		Future Land Use.....	II-28
	a.	Montgomery County	II-28
	b.	Prince George’s County	II-31
3.		Maryland Smart Growth Initiatives	II-31
D.		Cultural Resources	II-32
	1.	Historic Standing Structures	II-35
	2.	Archeological Resources.....	II-37
	3.	Certified Heritage Areas	II-43
E.		Natural Environment.....	II-44
	1.	Topography, Geology, and Soils.....	II-44
	a.	Topography	II-44
	b.	Geology.....	II-45
	c.	Soils	II-47
	2.	Groundwater	II-49
	a.	Methods.....	II-49
	b.	Existing Conditions.....	II-49
	3.	Floodplains.....	II-51
	a.	Methods.....	II-51
	b.	Existing Conditions.....	II-51
	4.	Prime and Unique Farmland Soils and Farmland Properties.....	II-52
	a.	Methods.....	II-52
	b.	Existing Conditions.....	II-52
	5.	Surface Water Resources	II-57
	a.	Watershed Characteristics and Geomorphic Conditions	II-57
	b.	Chemical Water Quality.....	II-64
	c.	Reservoirs	II-68
	d.	Scenic and Wild Rivers.....	II-71
	6.	Aquatic Biota	II-71
	a.	Methods.....	II-71
	b.	Existing Conditions.....	II-72
	7.	Waters of the U.S. Including Wetlands.....	II-82
	a.	Methods.....	II-83
	b.	Existing Conditions.....	II-84
	8.	Vegetation	II-104
	a.	Forest Characterizations.....	II-104
	b.	Forest Interior Dwelling Species and Habitat	II-108
	c.	Champion and Specimen Trees	II-112
	d.	Invasive Plant Species.....	II-113
	9.	Terrestrial Wildlife.....	II-115
	a.	Mammals.....	II-115
	b.	Reptiles and Amphibians	II-118

	c.	Birds	II-121
10.		Rare, Threatened and Endangered Species	II-123
	a.	Methods.....	II-123
	b.	Existing Conditions.....	II-127
11.		Montgomery County Unique and Sensitive Areas.....	II-135
	a.	Methods.....	II-135
	b.	Existing Conditions.....	II-135
F.		Existing Noise Environment	II-141
	1.	Highway Noise Fundamentals	II-141
	2.	Noise Sensitive Area Descriptions.....	II-142
	3.	Ambient Noise Level Measurements	II-144
	4.	Existing Noise Levels	II-153
	5.	Identification of Abatement Criteria and Land Use Relationships	II-154
G.		Air Quality	II-155
H.		Hazardous Materials	II-156
	1.	ISA Methods	II-157
	a.	Data Preparation.....	II-157
	b.	Regulatory Review.....	II-157
	c.	Title Searches.....	II-158
	d.	Historical Aerial Photo Review	II-159
	e.	Interviews/ Questionnaires.....	II-159
	f.	Well and Septic Information.....	II-159
	g.	Visual Inspection.....	II-159
	2.	PSI-Screening Methods.....	II-159
	3.	Existing Conditions.....	II-160
	a.	ISA Results	II-160
	b.	PSI-Screening Results.....	II-161
	c.	Well and Septic Systems.....	II-162

III. Alternatives Considered

A.		Preliminary Alternatives	III-1
	1.	MM 198 Alternative (Arterial Alternative)	III-2
	2.	Upgrade Existing Roads Alternative (UERA).....	III-2
	3.	Transit-Only Alternative	III-2
	4.	Howard County Connection Alternatives	III-2
	5.	Balanced Land Use Alternative	III-3
	6.	Combined Balanced Land Use and Enhanced Transit Alternative	III-3
	7.	M-NCPPC Staff and Board Hybrid Alternatives	III-4
	8.	Improve I-495.....	III-4
	9.	Auto-Train Route	III-5
	10.	Extend ICC West of I-270 and/or East of US 1	III-5

11.	Construct a Roadway from I-270/Falls Road to the Master Plan Alternative at MD 97 in lieu of Building the Master Plan Alignment Between I-370 and MD 97	III-5
12.	Move the ICC South of All Other Alternatives	III-5
13.	Build I-95 to Continue through the District of Columbia.....	III-5
14.	Transportation Systems Management/Travel Demand Management (TSM/TDM) Alternative.....	III-5
15.	Construct Two Separate East and West Highway Links.....	III-5
16.	Corridor 1	III-5
17.	Corridor 2.....	III-7
18.	No-Action	III-8
B.	Alternatives Dropped from Further Consideration	III-9
1.	MM 198 Alternative (Arterial Alternative)	III-9
a.	Community Mobility and Safety and the Movement of Goods and People To and From Economic Centers.....	III-9
b.	Local Land Use	III-11
c.	Homeland Security.....	III-12
d.	Incorporating Features of MM 198 into the Build Alternatives	III-12
2.	Upgrade Existing Roads Alternative (UERA)	III-13
3.	Transit Only Alternative	III-14
4.	Howard County Connection Alternatives	III-15
5.	Balanced Land Use Alternative	III-16
6.	Combined Balanced Land Use and Enhanced Transit Alternative.....	III-18
7.	M-NCPPC Staff and Board Hybrid Alternatives	III-19
8.	Improve I-495.....	III-20
9.	Auto-Train Route.....	III-21
10.	Extend ICC West of I-270 and/or East of US 1	III-22
11.	Construct a Roadway from I-270/Falls Road to the Master Plan Alternative at MD 97 in lieu of Building the Master Plan Alignment Between I-370 and MD 97	III-23
12.	Move the ICC South of All Other Alternatives	III-23
13.	Build I-95 to Continue through the District of Columbia.....	III-24
14.	Transportation Systems Management/Travel Demand Management (TSM/TDM) Alternative.....	III-24
15.	Construct Two Separate East and West Highway Links.....	III-25
C.	Alternatives Presented at the Alternatives Public Workshop	III-26
D.	Options Dropped From Further Consideration	III-26
1.	Corridor 1 and 2 Rock Creek Option B	III-26
2.	Corridor 1 Paint Branch Option B	III-26
3.	Corridor 1 and Corridor 2 Non-Tolled Options.....	III-27
E.	Alternatives Retained for Detailed Study (ARDS).....	III-27
1.	No-Action	III-28

2.	Build Alternatives	III-28
a.	Tolls	III-29
b.	Major Drainage Crossings	III-32
c.	Stormwater Management	III-33
d.	Environmental Stewardship	III-35
3.	Corridor 1	III-35
a.	Alignment, Options, and Interchanges	III-39
b.	Pedestrian/Bicycle Route	III-44
c.	Transit and Park-and-Ride Lots	III-45
4.	Corridor 2	III-45
a.	Alignment, Options, and Interchanges	III-48
b.	Pedestrian/Bicycle Route	III-54
c.	Transit and Park-and-Ride Lots	III-54
5.	Maintenance Facilities	III-55
6.	Interchange Operations	III-56
F.	Suggested Alternatives Evaluated after Publication of the DEIS	III-58
G.	Identification of the Preferred Alternative	III-59

IV. Environmental Consequences

A.	Avoidance and Minimization of Impacts Techniques Summary	IV-1
1.	Reduced Project Footprint	IV-1
2.	Context Sensitive Design Solutions	IV-2
3.	Longer Bridge Lengths, Using Bridges versus Culverts	IV-3
4.	Exceeding State Water Quality Regulations	IV-4
5.	Stormwater Management Facilities	IV-5
6.	Redundant Sediment & Erosion Control Measures	IV-7
7.	Environmental Management Program	IV-7
8.	Wildlife Passages	IV-10
9.	Environmentally Sensitive Construction	IV-11
B.	Social Effects	IV-12
1.	Displacements and Property Effects	IV-13
a.	Relocation Process	IV-13
b.	Description of Displacements and Relocations	IV-14
c.	Property Acquisition	IV-21
2.	Environmental Justice	IV-23
a.	Effects on Minority and Low Income Populations	IV-23
b.	Efforts to Engage in Full and Fair Participation	IV-27
c.	Efforts to Prevent Denial of Benefits	IV-28
3.	Community Impact Assessment	IV-29
a.	Community-Wide Effects	IV-30
b.	Community Area Effects	IV-31
c.	Quality of Life	IV-79
d.	Bicycle/ Pedestrian Facilities	IV-80

	e.	Effect of Tolls on Communities.....	IV-82
4.		Effects on Community Facilities and Services	IV-82
	a.	Park and Recreational Facilities.....	IV-82
	b.	Schools/ Education Facilities/ Religious Facilities.....	IV-85
	c.	Emergency and Health Care Services	IV-85
	d.	Transit Facilities.....	IV-86
	e.	Cemeteries.....	IV-86
5.		Visual Effects and Aesthetic Guidelines.....	IV-87
	a.	No-Action	IV-87
	b.	Corridor 1.....	IV-87
	c.	Corridor 2.....	IV-88
	d.	Mitigation.....	IV-89
C.		Economic Effects	IV-91
	1.	Effects on Regional Business Activities	IV-91
	2.	Effects on Local Business and Employment.....	IV-93
	3.	Tax Base Effects	IV-93
D.		Potential Land Use Effects.....	IV-93
	1.	Expert Land Use Panel Estimates	IV-93
	a.	No-Action Alternative	IV-94
	b.	Corridors 1 and 2	IV-94
	2.	County and State Plans and Laws	IV-95
	3.	Local Master Plans.....	IV-96
	a.	No-Action Alternative	IV-96
	b.	Corridor 1.....	IV-97
	c.	Corridor 2.....	IV-100
	4.	Planned and Approved Development	IV-100
	5.	Compliance with State Smart Growth Initiatives	IV-104
E.		Cultural Resources	IV-106
	1.	Historic Sites.....	IV-107
	a.	No-Action (No-Build).....	IV-108
	b.	Build Alternatives	IV-108
	2.	Archeological Resources	IV-125
	a.	No-Action (No-Build).....	IV-125
	b.	Corridor 1.....	IV-125
	c.	Corridor 2.....	IV-125
	d.	Alignment Options.....	IV-126
	3.	Conclusions.....	IV-127
	a.	Historic Standing Structures	IV-127
	b.	Archeology.....	IV-128
	c.	Heritage Areas.....	IV-131
	4.	Minimization/ Mitigation Measures	IV-131
F.		Natural Environment.....	IV-132
	1.	Topography, Geology, and Soils.....	IV-132

a.	Topography	IV-132
b.	Geology	IV-134
c.	Soils	IV-136
2.	Groundwater	IV-139
a.	Direct Impacts	IV-139
b.	Indirect Impacts.....	IV-141
c.	Avoidance, Minimization, and Mitigation.....	IV-141
3.	Floodplains.....	IV-143
a.	Direct Impacts	IV-143
b.	Indirect Impacts.....	IV-147
c.	Avoidance, Minimization, and Mitigation.....	IV-147
4.	Prime and Unique Farmland Soils, Soils of Statewide Importance, and Farmland Properties	IV-147
a.	Direct Impacts	IV-147
b.	Indirect Impacts.....	IV-151
c.	Avoidance, Minimization, and Mitigation.....	IV-151
5.	Surface Water Resources	IV-151
a.	Stream Channels and Geomorphic Assessments	IV-151
b.	Water Quality.....	IV-172
c.	Reservoirs	IV-187
d.	Scenic and Wild Rivers.....	IV-194
6.	Aquatic Biota	IV-195
a.	Impacts	IV-195
b.	Avoidance, Minimization, and Mitigation.....	IV-204
7.	Waters of the U.S. Including Wetlands.....	IV-207
a.	Direct Impacts	IV-208
b.	Conversion from Forested and Scrub-Shrub Wetlands to Emergent Wetlands.....	IV-218
c.	Indirect Impacts.....	IV-219
d.	Temporary Impacts	IV-221
e.	Avoidance and Minimization.....	IV-223
f.	Mitigation.....	IV-235
g.	Mitigation Post Construction Monitoring/ Performance Standards.....	IV-245
8.	Vegetation	IV-250
a.	Forest Characterizations.....	IV-250
b.	Forest Interior Dwelling Species and Habitat	IV-258
c.	Champion and Specimen Trees	IV-265
d.	Invasive Plant Species.....	IV-267
9.	Terrestrial Wildlife.....	IV-267
a.	Direct Impacts (All Terrestrial Wildlife)	IV-268
b.	Indirect Impacts (All Terrestrial Wildlife).....	IV-268

	c.	Mammals (Specific Impact Discussions and Avoidance, Minimization, and Mitigation).....	IV-271
	d.	Reptiles and Amphibians (Specific Impact Discussion and Avoidance, Minimization, and Mitigation).....	IV-279
	e.	Birds (Specific Impact Discussions and Avoidance, Minimization, and Mitigation).....	IV-283
10.		Rare, Threatened, and Endangered Species (RTE).....	IV-288
	a.	Direct Impacts.....	IV-288
	b.	Indirect Impacts.....	IV-295
	c.	Avoidance, Minimization, and Mitigation.....	IV-296
11.		Montgomery County Unique and Sensitive Areas.....	IV-299
	a.	Direct Impacts.....	IV-299
	b.	Indirect Impacts.....	IV-301
	c.	Avoidance, Minimization, and Mitigation.....	IV-301
G.		Noise Impacts.....	IV-301
	1.	Noise Prediction Methodology and Sound Barrier Fundamentals.....	IV-301
	2.	Noise Impact Analysis	IV-302
	3.	Noise Abatement Evaluation	IV-302
	a.	Evaluation of Barrier Height and Length.....	IV-302
	b.	Evaluation of Barrier Cost	IV-303
	c.	Evaluation of Feasibility and Reasonableness	IV-303
	4.	Summary of Results	IV-304
	a.	Corridor 1.....	IV-304
	b.	Corridor 2.....	IV-305
	5.	Construction Noise.....	IV-306
H.		Air Quality	IV-306
	1.	Overview.....	IV-306
	2.	Project Level Conformity.....	IV-307
	3.	Carbon Monoxide Hot-spot Analysis	IV-307
	a.	Traffic Data.....	IV-307
	b.	Emission Factors.....	IV-308
	c.	CAL3QHC Analysis	IV-309
	4.	Background Levels.....	IV-310
	5.	Sensitive Receptors.....	IV-311
	a.	CO Receptors	IV-311
	6.	Summary of Results	IV-311
	7.	Mobile Source Air Toxics.....	IV-317
	a.	Background	IV-317
	b.	Project Level Assessment	IV-321
	c.	Results.....	IV-326
	d.	Conclusions.....	IV-327
	8.	Construction Impacts	IV-328
I.		Hazardous Materials	IV-329

1.	Impacts	IV-329
a.	ISA Summary.....	IV-329
b.	Preliminary Site Investigation Screening Summary	IV-329
c.	Wells and Septic Systems	IV-329
2.	Avoidance, Minimization, and Mitigation.....	IV-333
a.	Avoidance and Minimization.....	IV-333
b.	Mitigation.....	IV-334
J.	Effects on Transportation.....	IV-338
1.	Introduction.....	IV-338
a.	Study Area Demographics	IV-339
b.	Measures of Meeting the Purpose and Need.....	IV-340
c.	Alternatives Currently Under Consideration	IV-341
d.	Alignment and Interchange Options	IV-341
2.	Travel Demand Analysis Methodology	IV-342
a.	Travel Forecasting Process	IV-342
b.	Transportation Research Board (TRB) Peer Review Process	IV-343
c.	Model Validation	IV-344
d.	Summary of Data Used in the Model.....	IV-345
e.	Post Processing	IV-346
f.	Effects of Latent Demand on Modeling Results	IV-347
3.	Toll Sensitivity Analysis	IV-348
4.	Traffic Impacts to the Study Area Network	IV-350
a.	Meeting the Travel Demand/Screenline Analysis.....	IV-351
b.	Travel Times	IV-354
c.	Accessibility to Jobs	IV-358
d.	Express Bus Service Ridership	IV-359
e.	Average Weekday Daily Traffic (AWDT) on Local Roads...	IV-361
f.	Improved Intersection Levels of Service	IV-362
g.	Hours at Capacity at Study Area Intersections.....	IV-380
h.	Safety Analysis.....	IV-384
i.	Sensitivity Analysis.....	IV-386
K.	Secondary and Cumulative Effects Analysis	IV-390
1.	Overview.....	IV-390
2.	Summary	IV-391
3.	Methodology	IV-391
a.	Secondary Effects.....	IV-391
b.	Cumulative Effects.....	IV-392
4.	Scoping.....	IV-393
a.	Resources	IV-393
b.	Geographical Boundaries	IV-393
c.	Time Frames	IV-394
5.	Land Use Policies	IV-395

a.	Local Planning and Zoning	IV-395
b.	State Smart Growth Laws	IV-396
6.	Developing Secondary Impact Scenarios	IV-398
a.	ELUP Advisory Group.....	IV-398
b.	Development of Secondary Land Use Mapping	IV-399
7.	Secondary Impacts (Induced Growth)	IV-400
a.	Existing and Projected Land Use Trends	IV-400
b.	Future Secondary Development (As Predicted by ELUP)	IV-403
c.	Future Secondary Impacts.....	IV-409
8.	Cumulative Impacts.....	IV-415
a.	Other Actions in the Near Future and Future Time Frame	IV-415
b.	Environmental Resources	IV-418
L.	Energy	IV-454
M.	Relationship Between Local Short-Term Uses of Man’s Environment and the Maintenance and Enhancement of Long-Term Productivity	IV-454
N.	Irreversible and Irretrievable Commitments of Resources	IV-454
V.	Final Section 4(f) Evaluation	
A.	Introduction.....	V-1
B.	Proposed Action.....	V-1
1.	Purpose and Need for the Project.....	V-1
2.	Alternatives Considered.....	V-2
C.	Background.....	V-3
1.	Maryland-National Capital Park and Planning Commission (M-NCPPC).....	V-3
a.	M-NCPPC Park Classification System in Montgomery County	V-4
b.	ICC Master Plan Corridor	V-5
D.	Methodology.....	V-7
1.	Identification of Section 4(f) Resources	V-7
2.	Identification of Section 4(f) Uses	V-7
a.	Direct Section 4(f) Uses.....	V-8
b.	Temporary Occupancy Resulting in Section 4(f) Use.....	V-8
c.	Constructive Use.....	V-8
3.	Analysis of Avoidance and Minimization Options.....	V-9
4.	Identification Measures to Minimize Harm	V-9
a.	Parkland Mitigation	V-9
b.	Historic Site Mitigation.....	V-10
5.	Evaluation of Alternatives	V-10
E.	Section 1: I-370 to MD 97	V-10
1.	Description of Section 4(f) Resources in Section 1	V-11
a.	Mill Creek Stream Valley Park.....	V-11
b.	Rock Creek Regional Park.....	V-12
c.	North Branch Stream Valley Park.....	V-14

2.	Uses of Section 4(f) Resources in Section 1	V-15
a.	Mill Creek Stream Valley Park	V-16
b.	Rock Creek Regional Park	V-17
c.	North Branch Stream Valley Park	V-19
3.	Avoidance and Minimization Design Efforts in Section 1	V-20
4.	Individual Section 4(f) Resource Avoidance and Minimization Shifts for Section 1	V-21
a.	Mill Creek Stream Valley Park	V-21
b.	Rock Creek Regional Park	V-23
c.	North Branch Stream Valley Park	V-23
F.	Section 2: MD 97 to I-95	V-24
1.	Description of Section 4(f) Resources in Section 2	V-26
a.	Corridor 1	V-26
b.	Corridor 2	V-31
2.	Uses of Section 4(f) Resources in Section 2	V-37
a.	Corridor 1	V-40
b.	Corridor 2	V-45
3.	Avoidance and Minimization Design Efforts in Section 2	V-50
4.	Individual Section 4(f) Resource Avoidance and Minimization Options for Section 2	V-51
a.	Corridor 1	V-51
b.	Corridor 2	V-53
G.	Section 3: I-95 to US 1	V-59
H.	Measures to Minimize Harm	V-60
1.	Parkland Mitigation	V-60
2.	Historic Site Mitigation	V-61
3.	Mitigation for the Corridor 1 Alternative	V-62
4.	Mitigation for the Corridor 2 Alternative	V-65

	2.	Historic Properties	V-122
Q.		Constructive Use Analysis	V-125
	1.	Methodology	V-126
	a.	Noise as Substantial Impairment	V-126
	b.	Visual Intrusion as Substantial Impairment	V-128
	c.	Restriction of Access as Substantial Impairment.....	V-129
	d.	Vibration Impact as Substantial Impairment.....	V-129
	2.	Analysis of Proximity Impacts.....	V-131
	a.	Section 1 (I-370 to MD 97).....	V-131

b.	Section 2 (MD 97 to I-95).....	V-134
c.	Section 3 (I-95 to US 1).....	V-163
3.	Conclusion	V-164

VI. Environmental Stewardship

A.	Concept/Definition.....	VI-1
B.	ES Priority Needs.....	VI-2
C.	ES Features Prior to the FEIS	VI-8
1.	Ranking Criteria.....	VI-9
2.	Site Screening and Field Tour Results.....	VI-10
a.	Community and Cultural Sites.....	VI-10
b.	Riparian Buffer Enhancement/Reforestation Sites	VI-10
c.	Stream Restoration Sites	VI-11
d.	Wetland Creation/Preservation/Enhancement	VI-11
e.	Stormwater Management Sites	VI-11
f.	Special Protection Area Best Management Practices	VI-11
g.	Fish Blockage Removal Sites	VI-11
3.	Future Steps	VI-12

VII. Preferred Alternative

A.	Introduction.....	VII-1
1.	Purpose and Need	VII-1
2.	Alternative Screening and Features of Alternatives.....	VII-2
3.	Public Involvement	VII-2
4.	Draft Environmental Impact Statement (DEIS) – Location/Design Public Hearing Process	VII-3
5.	Summary of Interagency Process	VII-3
a.	Interagency Working Group (IAWG).....	VII-3
b.	Principals Plus One (P+1).....	VII-3
c.	Supplemental Groups and Meetings	VII-4
B.	Impact Assessment of Alternatives.....	VII-4
1.	Impact Refinements and Further Minimization.....	VII-4
2.	Alignment Options.....	VII-4
a.	(Corridors 1 and 2) Rock Creek Option A vs. Rock Creek Option C	VII-5
b.	(Corridor 1) Northwest Branch Option A vs. B and Layhill Road Interchange	VII-8
c.	(Corridor 2) Norbeck Options A vs. B.....	VII-12
d.	(Corridor 2) Layhill Road Interchange.....	VII-13
e.	(Corridor 2) Spencerville Options A-D and Burtonsville Options A, X, and B	VII-15
f.	(Corridor 2) Fairland Options A and B.....	VII-21
g.	(Corridors 1 and 2) Termination at I-95.....	VII-23

3.	Preference for Each Alignment Option in Each Alternative.....	VII-25
4.	Environmental Stewardship.....	VII-25
5.	Stormwater Management Features.....	VII-25
a.	For the entire ICC	VII-26
b.	Outside of Special Protection Areas (SPAs).....	VII-26
c.	Within Special Protection Areas (SPAs)	VII-27
d.	Erosion and Sediment Control (ESC).....	VII-28
C.	Evaluation of Corridors 1 and 2.....	VII-28
1.	Transportation Analysis	VII-30
a.	Access to Jobs.....	VII-30
b.	Travel Time Savings.....	VII-30
c.	Average Daily Traffic Volumes.....	VII-31
d.	Network Capacity Effects	VII-34
e.	Intersection Congestion.....	VII-36
f.	Express Bus Service Ridership	VII-39
g.	Conclusion	VII-39
2.	Socioeconomic and Land Use Measures.....	VII-40
a.	Proximity to Existing Land Use- Interchanges	VII-40
b.	User Benefits.....	VII-40
c.	Economic Development.....	VII-43
d.	Consistency with Local Land Use Plans	VII-45
e.	State Smart Growth Laws	VII-47
f.	Potential Secondary and Cumulative Effects.....	VII-48
g.	Residential Displacements and Community Impacts.....	VII-49
h.	Business and Community Facility Displacements	VII-51
i.	Emergency Response	VII-51
j.	Conclusion Regarding Socioeconomic and Land Use Analysis	VII-52
3.	Environmental Measures and Conceptual Mitigation.....	VII-52
a.	Wetlands	VII-60
b.	Streams.....	VII-62
c.	Floodplains.....	VII-64
d.	Parklands.....	VII-65
e.	Historic Resources	VII-66
f.	Forests.....	VII-66
g.	Forest Interior Dwelling Species (FIDS)	VII-67
h.	Secondary Impacts to Natural Resources.....	VII-70
i.	Reservoirs	VII-71
j.	Resource Agency Comments on Natural Resource Impacts... VII-73	
k.	Description of Conceptual Mitigation	VII-74
l.	Conclusion Regarding Natural Resource Impacts	VII-87
4.	Stakeholder Comments	VII-87
D.	Preferred Alternative.....	VII-88

1.	Preferred Alternative Selection Factors	VII-88
2.	Summary of Impacts for Corridor 1 and Corridor 2	VII-92
3.	Description of Preferred Alternative	VII-94
4.	Construction Impacts	VII-95
5.	Process for Environmental Review During Detailed Design and Construction	VII-96
a.	Environmental Management Plan	VII-96
b.	Conclusion	VII-99

VIII. Agency Coordination and Public Involvement
