TRANSPORTATION

Right-of-Way and Planning Improvements
Existing right-of-way may need widening and/or improvement, in order to conform to the minimum standards set forth in the comprehensive amendment.

Primary Roads
The alignments of primary roads are shown on this map and are shown in the accompanying zoning map for illustrative purposes. At the time of adoption of this plan, alternative primary roads may be shown for suitability of design. (See Section 2.2 of Text)

Industrial Streets
Street right-of-way (not otherwise classified) showing existing or major planned industrial zoning, whether such classification lies on one or both sides of the right-of-way, shall be considered an Industrial Street with a minimum right-of-way, as established in the Montgomery County Subdivision Regulations (Montgomery County Code 1975, Chapter 50) for Industrial Streets, and shall be built in conformance with the Montgomery County Road Construction Code (Montgomery County Code 1975, Chapter 49). (See Section 2.2 of Text)

Business District Streets
Street right-of-way (not otherwise classified) showing existing or major planned commercial zoning, whether such classification lies on one or both sides of the right-of-way, shall be considered a Business District Street with a minimum right-of-way, as established in the Montgomery County Subdivision Regulations (Montgomery County Code 1975, Chapter 50) for Business District Streets, and shall be built in conformance with the Montgomery County Road Construction Code (Montgomery County Code 1975, Chapter 49). (See Section 2.2 of Text)

Arterial Roads
Street right-of-way (not otherwise classified) showing existing or major planned residential zoning, whether such classification lies on one or both sides of the right-of-way, shall be considered an Arterial Road with a minimum right-of-way, as established in the Montgomery County Subdivision Regulations (Montgomery County Code 1975, Chapter 50) for Arterial Roads, and shall be built in conformance with the Montgomery County Road Construction Code (Montgomery County Code 1975, Chapter 49). (See Section 2.2 of Text)

Interchange Improvements
The Comprehensive Amendment recommends new interchanges at the following locations and the abandonment of the existing interchange at the intersection of the following roads, in accordance with the State Highway Administration, these two interchanges should be built in accordance with the design standards set forth in the Plan. The design of these ramps must be approved by State and Federal authorities prior to construction. (See Section 2.2 of Text)

Transit Easement
The Comprehensive Amendment proposes a transit easement to extend north from the Metro station at Shady Grove Road. The right-of-way of this easement is indicated on the Land Use Plan and on the Zoning and Highway Plan. The right-of-way is hereby established to be used for bus service and to be equipped to be equipped to allow for the transit easement. (See Section 2.2 of Text)

ZONING

The zoning indicated on the Zoning and Highway Plan is that which will be contained in a Comprehensive Zoning Map Amendment to amend the existing Zoning Ordinance and to provide for the implementation of the Comprehensive Zoning Ordinance. The zoning indicated on the Zoning and Highway Plan is that which will be contained in a Comprehensive Zoning Map Amendment to amend the existing Zoning Ordinance and to provide for the implementation of the Comprehensive Zoning Ordinance. The zoning indicated on the Zoning and Highway Plan is that which will be contained in a Comprehensive Zoning Map Amendment to amend the existing Zoning Ordinance and to provide for the implementation of the Comprehensive Zoning Ordinance.
