Item #20: Encouraging a minimum of 25% of tree canopy coverage could significantly hinder redevelopment.
Historic Preservation
HP Staff have evaluated the potential resources identified in the Public Hearing Draft.

HP Staff reviewed each site with the Historic Preservation Commission on Dec. 5, 2012.

Designation would be an Amendment to the Master Plan for Historic Preservation:

- Does the resource meet the criteria?
- Is it in the public interest to designate?
- Should resource be listed on Locational Atlas and/or designated in MP for HP?
