- Things to Consider
- Plan Purpose
- Existing Conditions: Demographics and Planning Context
- Proposed Boundaries
- Project Schedule and Next Steps
- Mapping Exercise at Stations in the Back of the Meeting Room
Why we are here?

- Significant upcounty growth.

- MARC is an underutilized existing resource:
  - Parking and connections are issues at both stations.
  - Changes at one affect the other.
  - Changes have regional implications.

- Tying together other studies.

- Create opportunities for greater placemaking.
What is a Master Plan?

- Master Plans set a **vision and guide future physical development** within a specific area by making recommendations for:
  - Land Use
  - Zoning
  - Transportation
  - Design
  - Historic Preservation
  - Environment
  - Parks

- Master Plans are long-term, visionary documents.
What a Master Plan **can** do...

- Engage and promote understanding and cooperation from stakeholders in order to define a shared future community vision.

- **Serve as a guide** when development projects are submitted to the Planning Board.

- **Guide** other County and state policies and programs.

What a Master Plan **cannot** do...

- Require redevelopment or reinvestment.

- Bring specific retailers/commercial uses to the community.

- Directly fund capital improvement projects.

- Address operational issues.

- Address code and/or crime enforcement.
1. What makes the Boyds and/or Germantown areas special?

2. What would you like to change?

3. How can the MARC rail station areas be a catalyst for that change?

4. How do you envision the future of your communities?

Mapping Exercise

We want to find out from you some of the following things:

1. What makes the Boyds and/or Germantown areas special?
2. What would you like to change?
3. How can the MARC rail station areas be a catalyst for that change?
4. How do you envision the future of your communities?

Please consider both station areas and the greater upcounty region when providing comments.
