

Montgomery College Germantown Development Project

Germantown Forward-
Updating the Germantown
Master Plan (1989)

May 31, 2006

Montgomery College

- **Oldest community college in Maryland, founded in 1946**
- **Over 22,000 credit students, and 26,000 noncredit students enrolled**
- **Three campuses and two major Workforce Development and Continuing Education Centers**
- **Germantown Campus, over 5000 students**
- **Multiple career and transfer programs**
- **Advanced Biotechnology and Information Technology education and training at Germantown**

Montgomery College - Germantown

- **Supports the education and training pipeline for high-tech and biotech jobs**
- **Created unique Education and Training Continuum to support biotech jobs**
- **Created the Germantown Development Project to support biotech jobs**

Germantown Development Project Vision Statement

To develop a continuum of bioscience and technology education and training from middle school to postdoctoral levels in an *integrated* academic, business, and research environment.

Germantown Development Project

- **Bioscience Education Center**

Planned 126,900 square feet academic building with laboratories, classrooms, faculty, meeting and support space

- **Science and Technology Park**

Business park with 500-800,000 square feet initially, including office, laboratory and flex space with planned expansion to 1,000,000 square feet on 40 acres

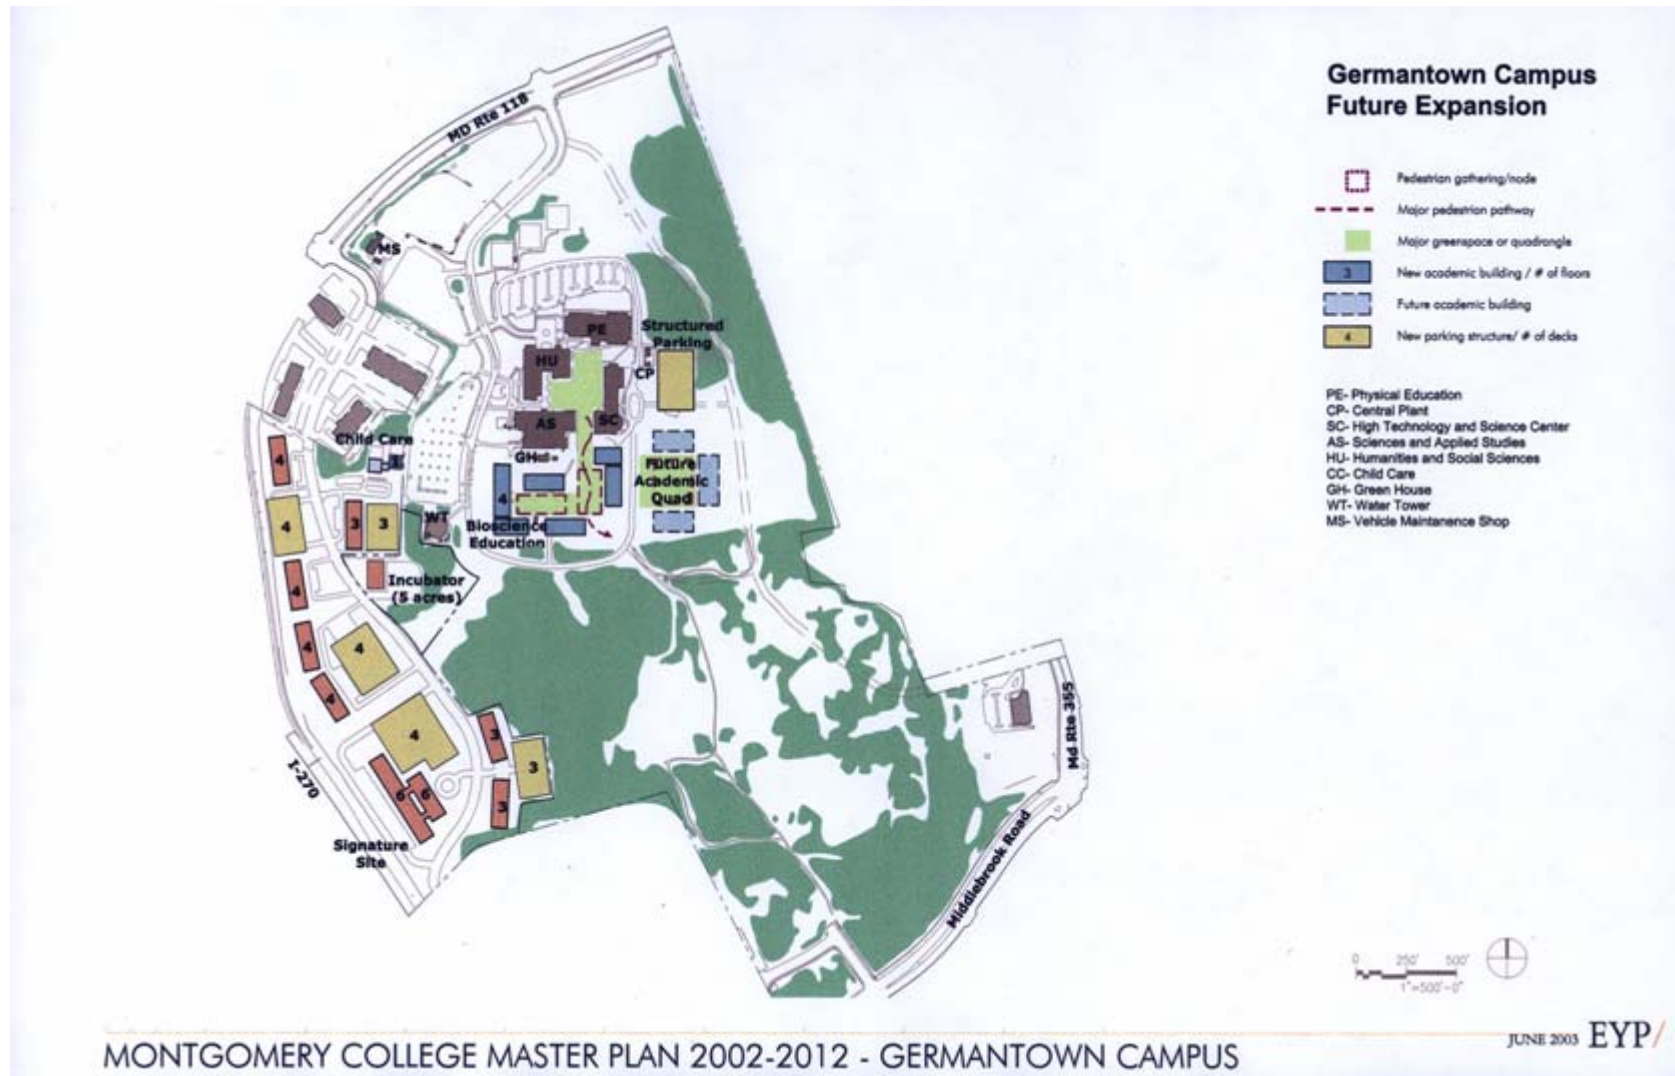

- **Germantown Technology Incubator**

County planned 30,000 square foot business incubator with expansion capabilities of 30,000 to 100,000 square feet

Bioscience Education Center

Germantown Campus Future Expansion and Technology Park

Our Vision Realized --

- **Bioscience Education Center with state-of-the-art laboratories and facilities**
- **Baccalaureate degree in biotechnology available in Montgomery County**
- **Well-trained and educated workforce**
- **Internships and employment in the industry**
- **Scientists successfully transitioned from research to business**

continued

Our Vision Realized--

- **Thriving technology park with over 4,000 new jobs created and over \$1.9 million annual tax return**
- **A successful incubator nurturing business startups**
- **Industry opportunities for teaching, curriculum development, and laboratory support**
- **Montgomery County cited as premier technology and biotechnology center in the nation**
