Abandoned per resolution #s 13-1431 and 13-1432

Existing Right-of-way widths (R.O.W.)

Recommended minimum Right-of-way widths.

Dedication or public easement on the north side to accommodate a CLASS 1 bikeway.

Metropolitan Branch R.O.W.

Right-of-way is 118' for a distance 300' east of 16th Street center line.

Some of the rights-of-way shown are less than the typical R.O.W. sections, based on recent subdivision approvals.

Private ownership may be considered. R.O.W. and alignment to be determined at Project Plan.

CBD area boundary
Non-CBD area included in Plan
