Div. 1.1. In General

Sec. 1.1.1. Citation
This Chapter is known as the “Zoning Code” of the Montgomery County Code and may also be referred to as the “Zoning Ordinance”. Within this Chapter, the Zoning Code may be referred to as this or the “Chapter”, “Ordinance”, or “Code”.

Sec. 1.1.2. Effective Date
A. The effective date of this Chapter is the date of the District Council resolution adopting the District Map Amendment.
B. The effective date of Article 59-8 is the date of the District Council resolution adopting the Chapter.

Sec. 1.1.3. Repeal of Existing Zoning Ordinance
The existing zoning ordinance entitled, "Montgomery County Code Zoning Ordinance: Chapter 59", as adopted on January 18, 2005 and as subsequently amended, is repealed as of the effective date of the District Map Amendment. The adoption of the revised Ordinance, however, does not affect or prevent any enforcement of the prior regulations, as applicable.

Sec. 1.1.4. Severability
A. Each provision of this Chapter is severable.
B. Each provision of any ordinance enacted in the future that amends or adds any provision to this Chapter is severable unless such ordinance specifically provides that its provisions are not severable.
C. The finding by a court that some provision of this Chapter or any subsequent amendment is unconstitutional and void does not affect the validity of the remaining portions of this Chapter unless the court finds that the remaining valid provisions alone are incomplete and incapable of being executed within the legislative intent of the District Council.
Div. 1.2. Purpose

Sec. 1.2.1. Purpose of Chapter 59

A. The purpose of this Chapter is to protect and promote the health, safety, morals, comfort, and welfare of the present and future inhabitants of the District. The zoning provisions regulations in this Chapter constitute the zoning ordinance text.

B. Interpretation and application of this Chapter are the basic and minimum requirements for the protection of public health, safety, morals, comfort, and welfare.
Div. 1.3. Applicability

Sec. 1.3.1. Applicability
This Chapter applies to that portion of the Maryland-Washington Regional District in Montgomery County, except for certain municipalities as stated in Sec. 1.3.2., and applies to all structures, lands, and uses over which the County has jurisdiction under the Constitution and the laws of the State of Maryland.

Sec. 1.3.2. Nonapplicability to Certain Municipalities
This Chapter does not apply to the municipal corporations of Brookeville, Poolesville, Laytonsville, Rockville, Barnesville, Gaithersburg, and Washington Grove.

Sec. 1.3.3. Annexations

A. Annexation of Additional Area to the Regional District
Any area annexed Maryland-Washington Regional District in Montgomery County after the effective date of this Chapter will immediately upon annexation be automatically classified in the most nearly comparable zone until a Sectional or District Map Amendment for such area has been adopted by the District Council. The Commission must recommend to the District Council zoning for the annexed area within 6 months after the effective date of such annexation.
Div. 1.4. Use of the Code

Sec. 1.4.1. Coordination with Other Regulations

A. The use of structures and land within Montgomery County is subject to all other applicable regulations as well as this Chapter, whether or not such other provisions are specifically referenced in the Code. Reference to other regulations or provisions of the Montgomery County Code is for the convenience of the reader; the lack of a cross-reference does not exempt a property, building, structure, or use from other regulations.

B. If a regulation adopted by this Chapter imposes a higher standard than those required under another statute or regulation, the regulation adopted under this Chapter controls. If the other statute or regulation imposes a higher standard, that statute or regulation controls.

Sec. 1.4.2. Code Organization

A. Article 59-1., General Zoning Code Provisions establishes the legal framework and purpose of this Chapter; describes what properties and land use elements are controlled by this Chapter; addresses how annexed properties are treated; how coordination with other regulations is governed; how tables, illustrations, and examples are to be interpreted; and defines certain terms used in this Code.

B. Article 59-2., Zones, establishes the various zones used by the County to implement land use policy; the intent of each zone; and how zoning maps are recorded and interpreted.

C. Article 59-3., Uses and Use Standards, provides a Use Table for all zones; defines each use; and specifies any use-specific standards in addition to the zone standards and requirements, and general regulations.

D. Article 59-4., Euclidean Zone Regulations, establishes the allowed development methods; defines how standards are measured and what exceptions are allowed; and establishes the development standards and requirements for each Euclidean zone.

E. Article 59-5., Floating Zone Regulations, establishes the development standards and requirements for each Floating zone.

F. Article 59-6., Optional Method Regulations, establishes the development regulations and standards for all optional method development, including development with Moderately Priced Dwelling Units, Cluster Development, TDRs, and development requiring public benefits in the Commercial/Residential and Employment zones.

G. Article 59-7., General Development Regulations, establishes the applicability, standards, and regulations for site access; parking, queuing, and loading; open space; recreation facilities; landscaping and outdoor lighting; outdoor storage and display; and signs.

H. Article 59-8., Administration and Procedures, establishes the application requirements necessary to comply with this Chapter and the related submittal regulations; review and approval authorities for such applications; decision-making requirements; how approvals received before this Chapter became effective are treated; how nonconforming sites, designs, uses, and structures are treated; and how this Code is enforced.

Sec. 1.4.3. Step-By-Step Use of the Code

This Section describes in general terms, and for the benefit of the reader, how to use the Code. It is not exhaustive, and may not contain all of the steps, information, or references necessary to make or evaluate a development application or to interpret or implement this Chapter.

A. To Determine the Zone

1. Obtain a copy of a property’s zoning map from the Montgomery County Planning Department. A scaled, certified zoning map obtained from the Planning Department will ensure that the information is accurate and reliable. Take note of any Overlay zones that apply.

2. Take note of the zoning for abutting and confronting properties because this may affect land use classifications, development standards, and other regulations. In particular, if a property is in a Commercial/Residential, Employment, Industrial, or Floating zone and is abutting property in an Agricultural, Rural Residential, or Residential Detached zone, limits on use, increases in setbacks, height restrictions, and other limits may be imposed.

3. Refer to Article 59-2 to find the intent of the zone because some approvals require an applicant to show that an application meets the intent of the zone.
B. To Identify the Allowed Uses and Applicable Use Standards

1. Refer to the Use Table in Article 59-3 to determine which uses are allowed in the zone and ensure that the desired use meets the definition in that Article.

2. If the desired use is not allowed in the zone, an applicant may wish to pursue a Floating zone that allows the use. In this case, the regulations for a Floating zone under Article 59-5 and the procedures for a Local Map Amendment under Section 8.2.1 will apply.

3. A use identified as limited ("L") or conditional ("C") is subject to additional standards or review. All conditional uses must be approved by the Hearing Examiner or Board of Appeals, as indicated. Some limited uses will require a site plan under Sec. 8.3.4.

C. To Review the Building Types Allowed by the Zone

1. Section 4.1.3 identifies which building types are allowed in the zone.

2. Only uses allowed in the zone may be approved for any given building type, which must also be allowed in the zone: the building type name does not imply any particular use as defined by this Chapter.

3. If the desired building type is not allowed in the zone, the applicant may wish to pursue a Floating zone that allows the building type. In this case, the regulations for a Floating zone under Article 59-5 and the procedures for a Local Map Amendment under Section 8.2.1 will apply.

D. To Determine the Development Method

1. There are 2 types of development allowed in this Chapter: standard method and optional method. In most cases, standard method development allows a base density and has set standards and regulations. Optional method typically allows more flexibility in building types, density, height, and standards and regulations, and may require the provision of public amenities and benefits and entails additional public review.

2. Refer to the applicable Division in Article 59-4 or Article 59-6 to determine the development thresholds for standard and optional method development.

E. To Determine the Applicable Zone Requirements

1. Under standard method development, the zone requirements, including lot size, lot width, setbacks, coverage, height, etc., are contained in Article 59-4 for Euclidean zones.

2. Under optional method development, the zone requirements, including public amenity and benefit requirements, are contained in Article 59-6.

3. The zone requirements for a Floating zone are contained in Article 59-5.

F. To Identify the General Development Regulations

1. Development must comply with the general development regulations established in Article 59-7, as specified in that Article.

2. General development regulations include standards for site access, parking, queuing, and loading; open space; landscaping and lighting; outdoor storage and display; and signage. Each Division of Article 59-7 includes the intent and applicability of the provisions and should be reviewed to ensure compliance.

3. If any applicant cannot comply with a provision in Article 59-7, or wishes to pursue an alternative, the mechanism for pursuing alternative compliance is indicated.

G. To Determine Review Procedures

1. Article 59-8 identifies what types of approvals are required and who performs the review.

2. Div. 8.1 identifies what types of approvals are required depending on the zone and method of development.

3. For each applicable approval the application requirements, submittal requirements, necessary findings, and other pertinent information are provided. The intake and review bodies are also enumerated. These agencies should be the first point of contact to ensure correct interpretation of the steps required and compliance with the regulations for development of any structure or land in the County.

H. Ensure Proper Interpretation

1. Refer to Div. 1.5 for the rules of interpretation and to find defined terms.

2. If a meaning, calculation, or measurement is unclear, a written interpretation may be obtained from DPS.
Div. 1.5. Defined Terms

Sec. 1.5.1. Rules of Interpretation
The following rules of interpretation apply to this Chapter.

A. How to Compute Periods Measured in Months
   If a period of time is measured in months, the period begins and ends at the same day of a month. However, if there are not enough days in the final month for this to be possible, the period ends on the final day of the final month.

B. How to Compute Deadlines
   If this Chapter requires or allows a person to perform an act within a specific time period measured in days, the person must compute the deadline in the following manner:
   1. If the period follows an event, count the day after the event as the first day of the period,
   2. Count the remaining number of days in the period. However, if the period is 7 days or fewer, omit Saturdays, Sundays, and legal holidays.
   3. Do not count the last day if it is a Saturday, Sunday, or legal holiday or if the office where the person must file a paper or perform an act is not open during the regular hours of that office.

C. Requirements to Act by a Specific Date
   If the law requires or allows a person to perform an act by a specific date, but the specific date is a Saturday, Sunday, or legal holiday, the person may perform the act on the next day that is not a Saturday, Sunday, or legal holiday.

D. Signatures
   The signature of a person may be the actual signature of the person or a mark that the person has authorized.

E. Singular and Plural
   The singular includes the plural and the plural includes the singular.

F. Tense
   The present tense includes the future tense.

G. Use of "Or"
   "Or" indicates that the connected items, conditions, provisions, or events may apply singly or in any combination.

H. Use of "Includes"
   "Includes" does not limit a term to the specified examples.

I. Title of Sections
   Titles and captions are not part of the law of the County. They only advise the reader of the content of each Section.

J. Tables, Illustrations, and Examples
   This Chapter contains numerous tables, illustrations, and examples to assist the reader in understanding and applying the Code. To the extent that there is any inconsistency between the text of this Chapter and any such table, illustration, or example, the text controls unless otherwise provided in the specific section.
