The Preliminary PHED Committee Draft is still under review.
Any additional changes will be incorporated in the Final
PHED Committee Draft. Article 59-8 has yet to be reviewed
by the PHED Committee therefore it is not included in the
Preliminary PHED Committee Draft.

Several elements of the Floating Zone Requirements are
being revised. After it is discussed with the PHED
Committee, it will be updated in the Final PHED Committee
Draft.
Division 5.1. In General

Section 5.1.1. Zone Categories
There are 4 categories of Floating zones:
A. Residential Floating zones ([Div.] Division 5.2);
B. Commercial/Residential Floating zones ([Div.] Division 5.3);
C. Employment Floating zones ([Div.] Division 5.4); and
D. Industrial Floating zones ([Div.] Division 5.5)

Section 5.1.2. Purposes
The purposes of the Floating zones are to:
A. Implement comprehensive planning objectives by:
   1. furthering the goals of the general plan, applicable master plan, and functional master plans;
   2. ensuring that the proposed uses are in balance with and supported by the existing and planned infrastructure in the general plan, applicable master plan, and functional master plans; and
   3. allowing design flexibility to integrate development into circulation networks, land use patterns, and natural features within and connected to the property; and
B. Encourage the appropriate use of land by:
   1. providing flexible applicability to respond to changing economic, demographic, and planning trends that occur between comprehensive District or Sectional Map Amendments;
   2. allowing various uses, building types, and densities on sites determined by the property’s size and base zone to serve a diverse and evolving population; and
   3. ensuring that development satisfies basic sustainability requirements including appropriate location and connections to circulation networks; and
C. Ensure protection of established neighborhoods by:
   1. establishing compatible relationships between new development and existing neighborhoods;
   2. providing development standards to protect the character of adjacent neighborhoods; and
   3. allowing design flexibility to provide mitigation of any negative impacts found to be caused by the new use.

Section 5.1.3. Applicability and Approval Required
A. A Floating zone must not be approved for property that is in an Agricultural or Rural Residential zone.
B. If a Floating zone is recommended in a master plan, there are no prerequisites for an application.
C. If a Floating zone is not recommended in a master plan, prerequisites apply as follows:
   1. The maximum allowed density is based on the base zone and size of the tract as stated in [Div.] Division 5.2 through [Div.] Division 5.5.
   2. Residential Base Zone
      When requesting a Floating zone for a property with a Residential base zone:
      a. If no commercial uses are requested and no increase in density above that allowed by the base zone is requested, there are no prerequisites for an application;
      b. If a commercial use or an increase in density above that allowed by the base zone is requested, the application must satisfy at least 2 of the prerequisites for each of the following categories:
### Location
- At least 75% of the site must be within ½ mile of a Level 2 transit station/stop or 1 mile of a Level 1 transit station/stop;  
- The site must be served by existing water and sewer infrastructure that will not require an upgrade due to the proposed development;  
- The site must be in a transitional location between existing Residential Multi-Unit, Residential Townhouse, or non-Residential zoning and Residential Multi-Unit, Residential Townhouse, or Residential Detached zoning;  
- Any stream, floodplain, wetland, or environmental buffer on-site will not be adversely impacted by the development; or  
- If proposing development that may generate students, the site must not be in an area that is under moratorium due to school capacity or result in a school utilization rate greater than 120% because of the proposed development. For any site within 2 school clusters, only the portions of the site that satisfy this requirement can proceed. Age-restricted or senior housing automatically qualifies for this prerequisite.

### Circulation Network
- All streets built as part of the development must be available for general public use;  
- Except for detached houses, all parking, except on-street parallel parking, must be to the side of or behind buildings;  
- Surface parking for the development must not cover more than 20% of the site;  
- The site has frontage on a nonresidential street; or  
- The tract is adjacent to an existing pedestrian and bicyclist route that is at least 5 miles in length.

### 3. Non-Residential Base Zone
When requesting a Floating zone for a property with a non-Residential base zone there are no additional prerequisites for an application.

---

D. Application of a Floating zone requires approval of a Local Map Amendment under [Sec.] Section 8.2.1.

E. A Floating zone application that meets the prerequisites and requirements in this Article (Article 59-5) may not be sufficient to require approval of the application.

**Section 5.1.4. Special Provisions for Properties in a Zone Under Article 59-9**

A. Properties in a zone under Article 59-9 may be rezoned to a Floating zone in this Article (Article 59-5) as follows:

1. The applicant must propose an equivalent Euclidean zone based on the subject property's existing use and density;
2. The equivalent Euclidean zone is the base zone that determines:  
   a. the prerequisites under [Sec.] Section 5.1.3 that apply;  
   b. the Floating zone that may be requested; and  
   c. any applicable land uses, building types, and development standards.

B. [This] Section 5.1.4 [(Sec. 5.1.4)] does not apply where Article 59-9 specifically prohibits rezoning to a new Floating zone.
Division 5.2. Residential Floating Zones

Section 5.2.1. Zones

A. There are 3 Residential Floating zone categories.

B. Residential Floating zones are mapped using the zone’s initials followed by a number indicating the maximum allowed units per acre approved by a Local Map Amendment under Section 8.2.1.

1. Residential Detached – Floating (RDF-#);
2. Townhouse – Floating (TF-#); and
3. Apartment – Floating (AF-#).

Section 5.2.2. Land Uses
