Subject: RE: Naval Ordnance Lab Admin Building -- PB Public Hearing Thurs. 5.23.2013

Hi, all.

It's been decided that all public testimony and presentations to the Montgomery County Planning Board regarding the possible historic designation of the Naval Ordnance Laboratory Administration Building will occur at the public hearing for the White Oak Science Gateway Master Plan. **The public hearing is scheduled as Item 8 at 6:30 pm on Thursday, 5.23.2013,** in the auditorium of the Montgomery Planning Department at 8787 Georgia Avenue, Silver Spring, MD. See [agenda](#). (Note agendas are subject to change, so please keep checking.)

Now that the date is clear, would you kindly let me know asap if you will be available then.

I have signed you up to speak at the public hearing in the order below, and I propose the following time limits :

- William Kirwan (Historic Preservation Commission Chair) – say 5 minutes, re: HPC recommendations, significance
- Brian Peper (FDA) – say 2 minutes (ceding remaining 3 minutes to Michael), re: FDA's position
- Michael Stevenson (Kling Stubbins) – say 6 minutes (3 from Brian, 3 for an individual), so Michael can do his excellent powerpoint presentation re: architectural restoration
- John Tino (President, Naval Ordnance Laboratory Alumni Association) -- say 5 minutes, re: history of NOL

Nancy, **would you also like to speak for GSA?** If so, say 3 minutes (although entitled to 5). Otherwise you could be there to answer questions if they come up. Please let me know.

Staff does not present at the public hearing, so I will not be speaking or making any introduction. I might be called upon to make a presentation at the workession on Thursday, 7.11.2013 (date tentative).

Per the signup link on the WOSG webpage, the minutes allotted per speaker type are as follows:

	Master Plans
Adjacent property owner	5
Community association representative	5
Government official	5
Individual	3

Other members of the public will be at the public hearing as well to testify on various aspects of the [White Oak Science Gateway Master Plan](#). Unfortunately, Planning Board deliberations will not occur until the Planning Board worksession on Thursday, 7.11.2013 (date subject to change), so you will not hear a decision on 5.23.2013.

Look forward to hearing from you, so that we can coordinate the testimony. Thanks

Subject: Next Steps for Naval Ordnance Lab Admin Building

To:
Brian Peper, FDA
Michael Stevenson, Kling Stubbins
John Tino, White Oak Lab Alumni Association
Nancy Witherell, GSA

Hi. Hope all is well. As you may recall, the [Naval Ordnance Laboratory Administration Building](#) (Building One, FDA, within the Federal Research Center in Montgomery County, MD) is being considered for local historic designation as part of the [White Oak Science Gateway Master Plan](#) that is currently underway. The Historic Preservation Commission voted to recommend designation at its public hearing/worksession on February 22, 2012, and you were all kind enough to attend. John testified about the scientific achievements of the NOL; Michael made a short PowerPoint presentation about the renovation; and Brian and Nancy were available for questions.

The next step is for the resource to be considered by the Planning Board. The tentative schedule is as follows:

- 5.23.2013 Planning Board Public Hearing on the White Oak Science Gateway Master Plan
- 7.11.2013 Planning Board worksession to consider historic resources (NOL Admin Bldg), parks, schools
- 9.2013 Transmit Planning Board Draft of the White Oak Science Gateway Master Plan, with the Planning Board's NOL recommendation, to the County Council

Would you kindly let me know your availability on 5.23 and 7.11.2013. I am hoping that on one of those dates (not sure which date yet), John and Michael can testify and Brian and Nancy can be available for questions, if any. I think the testimony and presentations were highly effective at the Historic Preservation Commission.

Thanks.

Sandra
