

Countywide Transit Corridors Functional Master Plan

Appendix 7

Potential Impacts to County-Listed Historic Resources

Georgia Avenue North Corridor

- Berry-Mackell House: A shift of the corridor to the west is preferred

Georgia Avenue South Corridor

- North Washington Shopping Center
- Jenkins Broadcast Facility at corner of Georgia Ave and Windham Lane

MD 355 North Corridor

- Cider Barrel
- Located at the intersection of MD 355 / Oxbridge Drive; very threatened because of the location, but Germantown Master Plan suggests it might make sense to relocate it

Randolph Road Corridor

- Colesville/Smithville Colored School environmental setting could be an issue in Phase 2

US 29

- Potential impacts to Polychrome Historic District
- Potential impacts to Robert B. Morse Water Filtration Plant

Veirs Mill Road

- Hammond Woods is a National Register District
- The neighborhood across Veirs Mill from Hammond Woods could be National Register eligible
- Veirs Mill site does not appear to be a problem
